

SACHIN KUMAR JHA

SOFTWARE DEVELOPER | AI & FULL STACK

sachinjha955612@gmail.com • Roorkee, Uttarakhand • 8976110774

AI-focused full-stack developer building and deploying ML models and scalable MERN applications. Proficient in Java, Data Structures & Algorithms, Python, and full-stack development using React, Node.js, and MongoDB. Strong foundation in software development, problem-solving, and web application design. Skilled at working collaboratively in a team environment, eager to contribute to real-world projects, and passionate about creating intelligent applications and continuous learning.

Work Experience

AI Engineer Intern (8-Week Internship)

Jun 2025 - Jul 2025

IIT BHU In collab with (Technex 25)

Bhuvneshwar

- Developed and deployed a Support Vector Machine (SVM) model for [specific use case, e.g., classification/prediction task] using Python and Scikit-learn.
- Developed a Flask REST API to serve the SVM model for real-time predictions.
- Designed a lightweight frontend interface to consume model APIs.
- Used Postman for API testing and managed version control with Git.
- Implemented API request validation and response handling for production readiness.

Founder & Full Stack Developer – Reservice (Live Web Application)

Jan 2026 - Present

Reservice webpage and webapp

Remote

- Developing and maintaining a full-stack live web application and responsive website for home service providers (AC, plumbing, etc.) using React, Node.js, Express, and MongoDB.
- Designed modular backend architecture separating authentication, booking, and payment services for scalability.
- Designed RESTful APIs using Express.js for booking, authentication, and payments.
- Built a React-based admin dashboard with dynamic state management using Context API.
- Improved page load speed by 30% through lazy loading and asset optimization.
- Ensured cross-device responsiveness using Tailwind CSS / Bootstrap.

Skills

Programming Languages

Java (OOP, Multithreading , DSA), Python

Web Development

React, HTML5, CSS3, JavaScript, Node.js, MongoDB

AI/ML Learning

Ai Chatbots, Cloud Deployment, Model Training, Precise web bots, Botpress, Voiceflow, N8N

Other Skills

Problem-Solving, Data Structures and Algorithm, Teamwork and collaboration, Team Management

Tools & Practices

RESTful API Design, Postman (API Testing), JWT Authentication & Password Hashing (bcrypt), Vercel (Frontend), Render (Backend), Google OAuth 2.0 Integration, reCAPTCHA Integration, Git & GitHub (Version Control), OWASP Security Testing (XSS, Input Validation)

Education

Haridwar University Roorkee

July 2023 - June 2027

Bachelors of Engineering (B.E) Computer Science & Engineering

Relevant Coursework:- Data Structures, Algorithms, Machine Learning, AI, Cloud Computing, Cybersecurity, Web Development, Database Systems, Software Engineering.

Certifications /Training

- IBM Cloud platforms | IBM and EDUNET Foundations | Feb 2026
- AI ML Internship | IIT BHUVNESHWAR in Collab With TECHNEX '25 | July 2025
- Microsoft ELEVATE Programme | MICROSOFT | Sept 2025
- Cyber Security And Privacy | NPTEL with IIT Madras | Oct 2025
